American Association for Cancer Education (AACE), www.aaceonline.com

The association provides a forum for health-related professionals concerned with the study and improvement of cancer education at the undergraduate, graduate, continuing professional, and paraprofessional levels. Cancer education efforts are related to prevention, early detection, treatment, and rehabilitation.

American Cancer Society (ACS), www.cancer.org

Information about colorectal cancer prevention, screening, and treatment options can be found under the "All About Colon and Rectum Cancer" section. Other resources include a glossary of terms, survivorship, information, and the community resource database to locate resources in your community.

American Gastroenterological Association (AGA), www.gastro.org

Dedicated to the mission of advancing the science and practice of gastroenterology, provides a Patient Center with information about colorectal cancer screening, early detection, and prevention.

American Society of Colon and Rectal Surgeons (ASCRS), www.fascrs.org

Provides professional and patient information about colorectal cancer screening.

CancerCare, www.cancercare.org

National nonprofit organization that provides free, professional support services to anyone affected by cancer. Information about diagnosis, treatment, and survivorship of colorectal cancer is available.

Centers for Disease Control and Prevention (CDC) – Screen for Life, www.cdc.gov/cancer/screenforlife

Provides colorectal cancer information, and screening fact sheets for patients and professionals. Campaign materials are available for a variety of cultural groups, including brochures; public service announcements for television, radio, and print; posters; and media releases. Scientific resources include a PowerPoint presentation entitled "A Call to Action: Prevention and Early Detection of Colorectal Cancer" developed to promote awareness among primary care providers of the importance of prevention and early detection of colorectal cancer.

Colon Cancer Alliance, www.ccalliance.org

Provides information about patient support, education, research, and advocacy. The Patient Support section includes information about colorectal cancer and symptoms, as well as support programs. Go to the Resource Center to find reviews of books and videotapes, plus links to helpful organizations. You also can order Colorectal Cancer Awareness lapel pins by selecting that option.

National Cancer Institute (NCI) – Colon and Rectal Cancer, www.cancer.gov/cancertopics/types/colon-and-rectal

Information about colon and rectal cancer, along with information about treatment; prevention, genetics and causes; screening and testing; clinical trials; and statistics.

National Colorectal Cancer Awareness Month, www.preventcancer.org/colorectal
Learn more about the month, the mission, and the collaborating partners behind National Colorectal Cancer Awareness Month (NCCAM). Find ideas that individuals and organizations can use in promoting National Colorectal Cancer Awareness Month, as well as colorectal cancer-related educational materials about topics such as getting screened, talking with your health care provider, family medical history, and more. You can view and order educational materials and a logo slick on-line.

National Colorectal Cancer Research Alliance (NCCRA), www.eifoundation.org/national/nccra/splash

Dedicated to the eradication of colon cancer by harnessing the power of celebrity to promote education, fundraising, research, and early medical screening. Information about the silver Caring Star is located under the "You Can Help" section. NCCRA public education and service materials to promote colorectal cancer awareness and screening can be found at www.eifoundation.org/national/nccra/public_ed/psa.html.

National Colorectal Cancer Roundtable, www.nccrt.org

A national coalition of public, private and voluntary organizations whose mission is to advance colorectal cancer control efforts by improving communication, coordination and collaboration among health agencies, medical-professional organizations, and the public. . Learn more about this organization and the available resources, including the new blue star emblem of hope for a colorectal cancer cure.

The information provided was selected by the Colorectal Cancer Coordinating Committee to provide information, resources, and activities to support Colorectal Cancer Awareness Month for members of the Indiana Cancer Consortium (ICC). The ICC does not warrant or guarantee the accuracy or reliability of the information nor does it imply endorsement of the content.

About the Indiana Cancer Consortium (ICC)

The ICC is a statewide network of public and private organizations working to reduce the cancer burden in Indiana. The ICC is an unincorporated association of organizations that implement the Indiana Cancer Control Plan 2005-2008. The Indiana Cancer Control Plan provides a framework for action to reduce the burden of cancer in Indiana. The ICC seeks to increase cancer prevention activities, increase early detection of cancer, decrease barriers resulting in disparities of access, screening and treatment; and increase quality of life for cancer patients thorough increased communication and collaboration of ICC member organization's activities that support a strategy from the Indiana Cancer Control Plan.
